

NEW!

SEPTTECH™

300G PUMP TANK

The Next Generation

Environmentally Sound

Watertight and corrosion proof onsite wastewater tanks.

Versatile

Suitable for septic or pump tank applications.

Heavy Duty

Designed to perform under tough conditions. Ribbed for extra strength.

Code Compliant

Meets or exceeds standard tank requirements.

Installer Friendly

Easy handling and multi-port inlet/outlet pipe configurations.

Safe & Secure

Sturdy, lockable, threaded cover and riser system.

FRALO is the proud owner and operator of the world's largest blow-mold machine. Our patented multi-layer co-extrusion process (COEX-4), utilizes high molecular weight HDPE to produce the "Next Generation" of onsite wastewater tanks.

Key Features

- Low-profile high-performance design.
- Convenient and watertight threaded access riser system (sold separately).
- Includes connection gaskets (pipe grommets).
- No water required during backfill.
- 50-year manufacturers warranty.
- Heaviest poly tank on the market.

FRALO looks forward to serving all your SEPTTECH™ tank needs!

- Access at or above grade level must be secured against unauthorized access
- Not rated for vehicular traffic loading

WARNING

WARRANTY FRALO Plastech Mfg. warrants the FRALO SEPTTECH™ tank for a period of fifty years from date of purchase against any manufacturing defects, providing the tank has been used and installed in accordance with manufacturer's written instructions. FRALO will, at its option, repair or replace any tank it deems to be defective and FRALO's obligations under this warranty are strictly limited to the repair and/or replacement of the defective tank. FRALO assumes no liability in cases of improper installation or misuse. FRALO is not responsible for any resulting contingent liabilities or charges. This warranty applies only to the original tank installation.
