

# RMT 300 Gallon Pump Tank

### Environmentally Sound

Watertight and corrosion proof onsite wastewater tanks.

**Versatile** Suitable for septic or pump tank applications.

**Heavy Duty** Designed to perform under tough conditions. Ribbed for extra strength.

**Code Compliant** Meets or exceeds standard tank requirements.

**Installer Friendly** Easy handling and multi-port inlet/outlet pipe configurations.

**Safe & Secure** Sturdy, lockable, threaded cover and riser system.

### Key Features

- ✦ **Low-profile high-performance design.**
- ✦ **Convenient and watertight threaded access riser system (sold separately).**
- ✦ **Includes connection gaskets (pipe grommets).**
- ✦ **No water required during backfill.**
- ✦ **Heaviest poly tank on the market.**

Roth is the proud owner and operator of the world's largest blow-mold machine. Our patented manufacturing and design process utilizes high molecular weight HDPE to produce the "Next Generation" of onsite wastewater products.

With an emphasis on products for the wastewater and environmental industries, Roth Global Plastics, Inc. is your innovative partner in business. Our products are engineered for performance over the long term. We welcome your comments and look forward to meeting your future engineered plastic product needs.
